## Music Studies 2

## **MODULE HANDBOOK**

# Dr Kagari Shibazaki

Term: Autumn Semester

#### **CONTENTS**

This handbook provides information about the module and its operation. Please study it carefully.

#### Section

- 1 INTRODUCTION / WELCOME
- 2 MODULE DESCRIPTION
  - 2.1 Overall Module aims
  - 2.2. Subject Specific Module Aims
  - 2.3 Skills and Abilities
  - 2.4 Applied Learning
- 3 LEARNING OUTCOMES
  - 3.1 Learning Outcomes overall
  - 3.2 Learning Outcomes specific
- 4 THE MODULE TEAM
- 5 INDICATIVE SYLLABUS
- 6 DELIVERY INFORMATION
- 7 INDEPENDENT STUDY PREPARATION FOR LECTURE
- 8 ASSESSMENT AND PRACTICAL TASKS
- 9 FURTHER READING SOURCES

#### 1. Introduction / welcome

Welcome to the module on Music Studies 1. This module represents an important part of your course work and we hope you will not only gain a lot from it, in terms of skills and knowledge, but we also hope you will enjoy it. The module aims to cover all the necessary knowledge content you will require but also we aim to equip you with a number of appropriate academic skills in writing, researching, discussing and critically evaluating. This applies not only to the work of others but to your own work as well. Throughout the module, you will also become acquainted with a range of ethical issues

associated with working and researching in the field of Music Studies.

### 2.0. Module Description

The module aims to offer you a range of learning opportunities including lectures, and a range of practical tasks and research opportunities for you to carry out in groups and also individually. Throughout the whole module, we aim to help you to develop the necessary skills of reflection and critical appraisal as well as promoting self-directed learning and we will encourage you to engage in academic debate, using current, high impact academic literature.

#### 2.1 Overall Module aims:

The overall aims of the module are:

- ★ to learn how to critically evaluate academic literature and present an informed argument based on current and well-established academic literature;
- ★ to become more aware of your own skills and knowledge levels and to identify your own learning needs and how to progress them; and
- ★ to understand how enquiry methods can be used to create and interpret knowledge.

#### 2.2 Subject Specific Module aims:

We will focus on qualitative research methods in the area of music studies. You will be introduced to the qualitative approach to researching topics in music, and then critically compare this with the quantitative research methods approach. We will look at the debates around objectivity/subjectivity, reductionism and reflexivity and how these approaches can be applied to the study of music. We will also take an initial look at the ethical issues involved in music and social science research. The content of the module will also look at how we can collect data, including through observation and interview. In particular we will look at different types of interviews and you will have the opportunity to practice and improve your research skills through collecting some actual real data related to music. In addition, this module will introduce you to different types of qualitative analyses. The assessment will include a written report about your data collection experience, and your analysis of what you found out.

#### 2.3 Skills and abilities

We also expect the module to assist you in developing the following intellectual skills namely;

- ★ A capacity to critically appraise current literature relating to this specific area of Music Studies:
- ★ A capacity to reflect on, critically review and evaluate empirical data and methodological approaches in this specific area of Music Studies; and
- ★ A capacity to engage in critical reflection on practice.

#### 2.4 Applied learning

We expect the module will assist in the process of applying your learning by helping you to build:

- ★ A practical understanding of, enquiry methods frequently used with Music Studies
- ★ An ability to apply such methodologies within, or applicable to, the settings of music studies
- ★ An ability to structure an argument with conclusions in clear, coherent written or oral presentation and to use appropriate conventions in writing and referencing.

### 3.0. Learning outcomes

#### 3.1. Learning outcomes - overall

This module will develop your knowledge of research methods and how to analyse your data and how this can be applied to studies in the area of music and other social sciences. You will learn about both the theoretical aspects of research methodology, and develop the practical skills you will need to carry out a small piece of research in an area in which you are interested. The module will also cover some of the key debates as to what is good and bad research, the type and range of methods and research tools we can use, and the data analysis techniques we can use in both quantitative and qualitative approaches.

#### 3.2. Learning Outcomes - Specific

Students who successfully complete this module will:

- ★ Demonstrate a knowledge and understanding of key research issues and methods in qualitative research;
- ★ Understand the aims of qualitative research & how these differ from research aims developed within a 'natural science' research paradigm.
- ★ Demonstrate an understanding of how methods of data collection and analysis relate to both (a) research aims/questions and (b) theory and literature in the area of Music Studies; and
- ★ Appreciate the historical development of qualitative methods and develop a basic understanding of some of the critiques of positivist approaches.

#### 4.0 The module team

The address for the Department within which your module is situated is:

Tokyo College of Music 1-9-1 Kami-meguro, Meguro-ku, Tokyo

Staff involved in the organisation and delivery of this module are as follows:

Dr Kagari Shibazaki Module Leader shibazaki\_kagari @tokyo-ondai.ac.jp

#### **Module Leader**

The Module tutor has overall responsibility for organizing, delivering and assessing a module. It is the Module Leader who you should see with any queries or problems related to a specific module, if the Course administrative officer cannot help.

Music Liberal Arts Course administrator mla@tokyo-ondai.ac.jp

#### Course administrator

The Course Assistant has responsibility for providing a full and responsive administrative service in support of the processes and procedures associated with student and course administration.

### 5.0 Indicative Syllabus

Overall, the module syllabus will introduce students to

- Qualitative research methods how these can be applied to the area of music and the social sciences
- The scientific research process understanding such issues as objectivity/subjectivity, reflexivity and quality in qualitative research within the area of music;
- The differences between structured and unstructured observation for musical activities;
- How to design an interview schedule and conduct an interview project;
- An introduction to basic data analysis of interview data; and
- International and cross-cultural perspectives

### 6.0. Delivery Information:

Week	Title	Synopsis
1	Different types of research – What is Music	An outline of the module and a brief
	Studies?	introduction to the main ideas, concepts and
		theories within Music Studies.

2	What is mixed methods research? – How	This session will focus on the main ideas,
	can we understand music quantitatively	concepts and philosophy of mixed methods
	and/or qualitatively?	research in Music Studies and Social
		Science.

3	What is qualitative research? - How useful is	This session will cover the main ideas and
	it for understanding music?	concept of qualitative research in the area of
		Music Studies.
4	Qualitative observation	Through this session, you will learn how we
		could observe our musical behaviours
		qualitatively.
5	Reviewing your observation data	
		Through this session, you will learn how to
		analyse your qualitative observation data
		during musical activities. We will also discuss
		how the qualitative observation is different
		from systematic observations.
6	Different types of interviews	This session will cover how to conduct a
		qualitative interview in the area of music.
7	Photo interviews	In this session, we will consider how we can
		photos to elicit our experiences during the
		interview.
8	Designing a qualitative study - interview	
	schedule	Through this session, you will learn about
		designing your interview schedule in order to
		explore our musical behaviours in depth.
9	Conducting a qualitative study - data	Through this session, you will finalise your
	collection	own interview schedule, and we will discuss
		the ethical issues involved when conducting
		an interview study.
10	Analysing qualitative data – Making interview	Through this session, you will gain
	transcripts	experience of the actual research process
		when conducting an interview study in the
		area of music.
11	Thematic Analysis – Coding and	
	Thematising	This session will look at the analysis of your
		interview data. In particular, we will consider
		how we code and thematise your data.
12	Developing your analysis	This session will review your interview data
		and re-consider the strengths and
		weaknesses of using interviews in the area of
		music.

13	Reflexivity and quality in thematic analysis	This session will introduce you to the concept of reflexivity and quality in interview studies.
14	Writing up your qualitative study	In this session, we will cover how to write up a qualitative report for your interview project.
15	Summary	This session will summarise the main aspects of the module and some of the most important points will be revised and discussed further.

### 7.0 Independent study – Preparation for lecture

In order to gain the most out of the module, it is very important that you engage fully with:

- ★ the taught sessions,
- ★ the directed tasks,
- ★ the set readings and,
- ★ the required research activities.

All these activities will be described fully. In some instances, you will be required to find and carry out an evaluation of a sample reading whilst on other occasions you will be required to fulfil a practical task and report on it, either alone or in a small group.

You are asked to take these tasks seriously as they frequently form the foundations of subsequent work.

Therefore, outside of the directed class times, you will be required to:

- ★ Be interested in the role of music in your everyday life.
- ★ Read articles set by tutor in advance of taught sessions.
- ★ Be prepared to undertake small research projects within the discipline

### 8.0 Assessment and practical tasks:

#### Assignment:

You are going to write a research report which will consist of your responses to some practical tasks. The tasks should be good fun and require you to carry out some small pieces of real research.

The assignment is assessed as follows: your coursework tasks will count for 60% of your final grade, whilst your contribution in class counts for 40% of your final grade.

		Module Grading Bands
S	90% +	Excellent demonstration of scholarly application / critical understanding of
		subject area knowledge
		• well structured assignment that addresses the learning outcomes and
		specific criteria for the module
		<ul> <li>critical understanding/application is evident through systematic and</li> </ul>
		relevant coverage of content
		clearly communicated in a style appropriate to the assessment brief
		accurate and predominately consistent use of a recognised referencing
		system
		wide range of appropriate sources
А	80-89%	Very good demonstration of scholarly application / critical understanding of
		subject area knowledge
		• well structured assignment that addresses the learning outcomes and
		specific criteria for the module
		<ul> <li>critical understanding/application is generally evident in the coverage of</li> </ul>
		content
		clearly communicated in a style appropriate to the assessment brief
		<ul> <li>predominantly consistent and generally accurate use of a recognised</li> </ul>
		referencing system
		good range of appropriate sources
В	70-79%	Good demonstration of scholarly application / critical understanding of
		subject area knowledge
		• fairly well structured assignment that addresses the learning outcomes
		and specific criteria for the module
		• some critical understanding/application is evident through coverage of
		content which is also descriptive
		good communication in a style appropriate to the assessment brief
		• predominantly consistent and generally accurate use of a recognised
		referencing system
		a range of appropriate sources

Poor demonstration of scholarly application / critical understanding of subject area knowledge  • poorly structured assignment that does not address the learning outcomes and specific criteria for the module  • coverage of the content is inadequate or incomplete  • poor communication that does not use a style appropriate to the assessment brief  • recognised referencing system is not used  • sources are very limited or absent, or over reliance on one or two sources	С	60-69%	Adequate demonstration of scholarly application / critical understanding of
and specific criteria for the module  largely descriptive with some critical understanding/application evident through coverage of content  communicates in a style appropriate to the assessment brief  attempts to use a recognised referencing system but may have occasional systematic errors  a limited selection of appropriate sources  Limited selection of appropriate sources  Limited demonstration of scholarly application / critical understanding of subject area knowledge  poorly structured assignment that does not completely address the module learning outcomes and specific criteria  work is descriptive in its coverage of the content  poor communication that does not use a style appropriate to the assessment brief  use of recognised referencing system is systematically inaccurate throughout the document  an insufficient range of appropriate sources  E-Fail  10-39%  Poor demonstration of scholarly application / critical understanding of subject area knowledge  poorly structured assignment that does not address the learning outcomes and specific criteria for the module  coverage of the content is inadequate or incomplete  poor communication that does not use a style appropriate to the assessment brief  recognised referencing system is not used  sources are very limited or absent, or over reliance on one or two sources  Very poorly structured assignment that does not address any of the			subject area knowledge
